Invitation to the National Career & Science Expo in Engcobo Local Municipality

Dear SAASTA & STAKEHOLDERS

The South African Agency for Science and Technology Advancement and its Stakeholders are hereby invited to participate and exhibit at the 2022 National Career & Science Expo scheduled for 12 May 2022 in the Engcobo Local Municipality, Eastern Cape Province.

Launched in 2021, the National Career & Science Expo was founded to empower children in previously disadvantaged communities that have been marginalised in access to quality education and inimitable career options.

The National Career & Science Expo is delivered in partnership with the Eastern Cape Department of Education and targets learners in townships, rural and remote areas through exposure to unique career options they are ordinarily not privy to.

Informed by trends and patterns in the market place, and the high unemployed graduate rate in South Africa, the career expo aims to steer learners towards career paths considered scarce and to be critical skills. Learners are exposed to careers in science, technology, engineering, and mathematics (STEM), which are in high demand, and many other exclusive career options.

This year will see the second instalment of the National Career & Science Expo in Engcobo Local Municipality, which promises to be bigger and better through collaboration with key stakeholders including the Engcobo Local Municipality and the Eastern Cape Department of Education.

The National Career & Science Expo in Engcobo Local Municipality will take place as follows:

DATE: 12 May 2022

TIME: 09H00

VENUE: Engcobo Sports Field

To RSVP and for further enquiries, please contact Promise Twala on 010 300 6017 / 082 721 7888 or email promise.ariff@gmail.com .

Kind regards,

Siyavuya Mbete: Managing Director
